

# SPECIAL SESSION OF CONGRESS ENDS

## PRESIDENT HARDING SIGNS MATERNITY AND TAX REVISION BILLS

Many Important Measures Were Passed During the Session—Virtually All of the Executive's Requests Were Heeded—List of Measures Acted Upon are Enumerated

(By The Associated Press)  
WASHINGTON, Nov. 23.—The first, and special session of the Sixty-Seventh Congress ended late today after President Harding had visited the capitol and signed measures enacted in the closing hours. The house was the first to close up shop adjourning sine die at 4:01 and at 4:37 o'clock the senate quit. Chief among the measures signed by Mr. Harding were the tax revision and maternity bills, each of which for several months occupied the attention of one branch of congress or the other. After finally disposing of the tax bill the senate turned to clean up some five hundred presidential nominations. But it did not complete the job. Nearly half of the number were left to die under the law. Most of those upon which no action was taken were minor postmastership appointments. It was understood that attempts to put thru the last minute nominations had been blocked largely thru charges by several senators that an effort was being made to "railroad" the appointments.

## TRAIN STALLED IN SNOW BANK SINCE SATURDAY

Many Others Stalled Thruout State of Oregon

(By The Associated Press)  
PORTLAND, Ore., Nov. 23.—Train No. 102 on the Oregon Trunk Railway enroute from Bent to Portland, has been stalled in a snow bank twenty feet deep since Saturday. Relief engines also were stalled. It was said today the engine that was sent from the south has been dug out but nothing has been heard from the engine that started from the north for the stalled train.  
Two relief engines and one passenger coach left Bent today for the stalled train. Other railroads are uncovering trains that were stalled by the rains, snow and ice of Saturday night and Sunday. A rotary snow plow this morning reached the stalled passenger train which left Spokane Saturday night for Portland. The train was at Cook, nearly opposite Hood River, and after this train and another one which has been stalled at Fall Bridge are freed from the ice the passengers will be taken to Stevenson where they will be put on a boat for Portland.  
Two river steamers have left Portland for Stevenson. They carry coals and provisions to supply the passengers, who have been stalled since Saturday, with meals.

## ORDERS CHICAGO FARES REDUCED

(By The Associated Press)  
CHICAGO, Nov. 23.—The Illinois Commerce Commission today issued an order reducing rates for fares in Chicago from 5 cents to 4 cents, effective Friday. The rate of fare established by the commission follows closely the petition of the Cook county real estate board for a ten cent fare. Tonight's order will not be effective after July 1, 1922, although the commission observes the right to continue the order after that date.

## INSURANCE OFFICER IS UNDER ARREST

Springfield, Ill., Nov. 23.—Remt Leubers, deposd president of the Metropolitan Livestock Insurance company was arrested here tonight on warrants charging him with embezzlement and conspiracy to defraud the company of \$11,000. He immediately gave bond of \$10,000 for his appearance at a preliminary.  
B. A. Murrelle, a salesman who obtained a warrant charging M. T. Jamieson, manager of the company, with fraud, was also arrested on a similar charge.  
Directors of the company adopted a resolution declaring their faith in Jamieson and offered him the presidency of the company.

## WOULD REDUCE FREIGHT RATES TEN PER CENT

Reduction Proposed on Carload Lots of Farm Products

(By The Associated Press)  
WASHINGTON, Nov. 23.—A ten per cent reduction in carload freight rates on farm products, coupled with reduction in railroad wages was proposed by the carriers to the interstate commerce commission today as a substitute for the order of the commission dated Oct. 20 reducing rates on hay and grain shipments. The sub-schedules would be effective "for an experimental period of six months."  
The commission was asked to reopen its decision of October 20 in order that argument might be given in behalf of their proposal. The suggested reduction on carload shipments it was explained, would cover grains, hay, cotton and cottonseed and its products—except meal and oil—citrus and fresh fruits, livestock and dairy products.  
The scope of the proposed cut in wages was not indicated, the statement merely stating that "the benefit of the reduction thus obtained" from the railroad labor board shall be passed to the public in reduced rates.  
Any reduction in rates made since September 1, 1920 would "constitute a part of this ten per cent," under the railroads' suggestion which specified further that "the proposed reduction shall not apply to the movement of such traffic wholly within New England."

"The effect of this proposal," said the application, "will be an immediate reduction in carload rates on the products of agriculture and the products of animals which are mentioned, but as soon as the extent that a reduction in wages is obtained from the labor board on the proposed application a further reduction in rates, except as meanwhile put in to effect to be distributed among the users to transportation in such manner as this honorable commission may determine."  
The proposal thus deals immediately and without waiting for a reduction in operating costs, in the manner stated, with the needs of agriculture and undertakes to make further reductions not confined to agriculture as soon as further reductions are made possible.

Frequent reference was made in the closing debates to the length of the session which began April 11, some saying that the work had caused irritability and lack of co-operation among members. Congress will have only a brief respite from its labors however, convening in regular session on December 5.  
Many committees will continue work during the recess. The principal questions before committees are railroad legislation and tariff revision.  
Establishment of a technical status of peace with the former central powers and enactment of a long train of reconstruction legislation were the principal achievements of the extra session of the sixty-seventh congress.

Called soon after President Harding's inauguration, virtually all of the executive's legislative requests made in his opening address at a joint session April 13, were heeded. The principal requests of the president were adoption of the Knox peace resolution, provision for peace treaties, tax and tariff revision legislation and consideration of a new department of public welfare. Only on the latter was no definite action taken, except for public hearings and introduction of bills.  
The Knox measure was adopted by the senate April 30 and by the house in amended form June 13, the final draft being enacted July 1.  
Peace treaties with Germany, Austria and Hungary followed shortly and were ratified October 18.  
Another step taken early in the session was ratification by the senate April 20 of the long delayed \$25,000,000 Colombian treaty.  
Of domestic interest fiscal legislation was prominent with passages of the tax revision bill the most important achievement. The permanent tariff revision bill was taken up first and passed by the (Continued on Page Four.)

## Defense In Landru Trial Has Good Day

(By The Associated Press)  
VERSAILLES, Nov. 23.—The defense in the trial of Henri Landru who is charged with eleven murders was considered today to have had its best day since the trial opened. The defense proved by witness for the prosecution that Landru's villa at Gambais where the murders are alleged to have been committed, remained unprotected between April 13, the date of the first search of the premises at which nothing but the bodies of two dogs were found and April 25, three days prior to the second search, when a pound and a half of bones which the prosecution avers belonged to human beings, were discovered. The jury seemed greatly impressed when M. Moro-Giafferi, of counsel for the defense, compared the testimony of Fernande Segret who lived with Landru from late in 1915 up to the time he was arrested in April, 1919, with that of Police Inspector Danlet.  
Mlle Segret testified yesterday that she built a fire in the kitchen range at Gambais on April 5 and noticed nothing strange among the ashes. Inspector Danlet swore that on April 28, a portion of the pound and a half of bones produced in court were found in this range. The prosecutor joined the defendant's counsel in blaming the police officer who conducted the search April 13 for not immediately sealing up the Gambais villa and placing a guard there.  
Landru seemed somewhat staggered by the first question put to him today by Judge Gilbert.  
"What has been your method of executing your victims—by firearms, poison or strangling?" was the question.  
Landru recovered his composure when the prosecution admitted that it was unable to prove the manner in which the prisoner's alleged victims had vanished. It was said that death might have resulted from poison administered as a book entitled: "The World's Famous Poisoners" had been found in the villa.  
"One doesn't poison women with books," flippantly retorted Landru.  
The testimony of a score of men and women residents of Vernouillet and Gambais that they witnessed a foul smelling dark smoke coming from the chimneys of the two villas in which Landru lived, weakened under cross-examination by the defense especially during the testimony of a butcher, the neighbor of Landru at Gambais. The butcher said that while he was not able to testify definitely on the point, it was his opinion the odor came from burning rubber.

## ANTI-BEER BILL IS BELIEVED TO BE UNCONSTITUTIONAL

Brewers Counsel Thinks That It Is Class Legislation

(By The Associated Press)  
NEW YORK, Nov. 23.—Belief that the anti-beer bill just signed by President Harding, could be attacked as unconstitutional, was expressed tonight by W. H. Hirst, general counsel of the National Brewers Association.  
One ground for attack, he asserted, was that the law discriminated against beer and in favor of other alcoholic liquors for medicinal purposes.  
Moreover, he asserted the 18th amendment could not be legally interpreted as permitting congress to "interfere" other than with liquors intended for beverage purposes.  
In the third place, he said, provisions of the new law dealing with search and seizure "inferentially" violated the 4th amendment guaranteeing the security of home and person.  
Mr. Hirst asserted that an attack on the validity of the law was a matter for the medical profession, not for the brewers.

## JAPS DENY ANY DISAGREEMENT

(By The Associated Press)  
WASHINGTON, Nov. 23.—Following a public denial tonight by Prince Tokugawa, of a rumor that the appointment today of Vice Foreign Minister Hanihara as Japanese plenipotentiary to the Washington conference was due to a disagreement of policy between Admiral Baron Kato and Baron Shidehara, the ambassador, an official bulletin was issued saying that Baron Shidehara was suffering from inflammation of the kidneys. The bulletin was signed by one Japanese and two American physicians.  
Prince Tokugawa characterized the rumor of the Japanese delegates as "silly nonsense." He said that Mr. Hanihara was appointed plenipotentiary because of illness of the ambassador placed too much work upon the other delegates.

## NEW APPOINTMENT IS MADE BY JAPAN

Washington, Nov. 23.—Vice-Foreign Minister Hanihara of Japan who was today appointed his country's fourth plenipotentiary to the Washington conference said tonight that Japan might be ready to pool some of her Manchuria concessions in the new financial consortium for China, but that there were some she certainly would not be willing to pool, more particularly concessions in the Kwang Tung leased territory which were gained from Russia "at the price of blood."

## NEW GOVERNOR IS GIVEN OATH OF OFFICE

BISMARCK, N. D., Nov. 23.—A. Nestos, an attorney, of Minot, was sworn in late today as the thirteenth governor of North Dakota, displacing Gov. Lynn J. Frazier, a non-partisan league choice, who was ousted in the October 28 recall election.

## MEMBERS DIFFER AS TO RECORD OF THE SPECIAL SESSION

Praised by Republicans and Criticized by Democrats

(By The Associated Press)  
WASHINGTON, Nov. 23.—The record of the special session of congress was in turn praised and decried in the house today during the closing hours. Representative Mondell of Wyoming, Republican leader declared that judged either by volume of importance of business transacted the special session, "so far at least as the house of representatives is concerned, may be properly classed as one of the most diligent and important sessions in the history of the American congress."  
The house, Mr. Mondell said, was in actual session about six months and in that period 136 bills and resolutions have become laws while 135 additional measures were passed by the house and are now before the senate.  
Taking issue with a statement by Representative Garret of Tennessee that the tariff bill as approved by the house was not designed by its promoters to become a law Mr. Mondell predicted that when finally enacted it would be in the main resemble the house draft. The tax bill discussion, Mr. Garret said, had resulted in splitting the Republican party.

## PRESENT PLAN FOR TARIFF AUTONOMY

(By The Associated Press)  
WASHINGTON, Nov. 23.—A plan for the restoration to China of tariff autonomy, in three stages, was presented to the Far Eastern committee of the Washington conference late today by Dr. Wellington Koo, one of the Chinese delegates. A sub-committee was appointed to thresh out the subject.  
China Dr. Koo says does not contemplate any immediate change in the assertion of her customs. This was explained to mean that customs would continue to be devoted to the service of foreign loans in the same proportion at present.

## MERCHANTS ACCEPT CORN AS COLLATERAL

MADISON, Minn., Nov. 23.—Merchants of Madison have decided to accept corn as payment of debts and for purchases of merchandise. This action was taken yesterday and followed complaint of farmers that they were unable to meet their financial obligations with the merchants, and held the low market price of corn made it impractical for them to haul their grain to market.

## NO INVITATION TO PLAY FOOTBALL

PASADENA, Cal., Nov. 23.—No invitation has been extended to any eastern or western college or university football team to play in the annual east versus west game here New Year's day. It was stated tonight by J. J. McNeill, president of the Pasadena tournament of roses association,

## ARMS DELEGATES FIND MANY KNOTS FOR UNTANGLING

Several Problems Are Bothering as Recess is Taken

(By The Associated Press)  
WASHINGTON, Nov. 23.—When the arms delegates quit work for the Thanksgiving Day recess these considerations embraced the central points of interest in their discussions:  
Whether the effort to apply general accepted principles to specific cases in the Far East would bring definite accomplishments or only lead to futile debate.  
Whether, in view of the position of France and the general situation in Europe any serious attempt should be made to agree on a limitation of land armament.  
Whether a way can be found to hasten consideration of details of the naval limitation plan, which is progressing smoothly but too slowly to satisfy some of the delegates.  
Of these questions the first was brought sharply to the fore tonight by several direct clashes of opinion regarding elements of the far eastern negotiations. At today's executive session of the nine delegations, the right of the Chinese delegates to speak for the whole of China was reported to have been questioned by France, and later a British interpretation of the general principles already adopted was challenged by some of the Chinese.  
Earlier in the day the land armament problem had been debated behind closed doors by the delegates of the big five powers without further result than the appointment of a sub-committee to consider collaterals just like the use of airplanes and poison gases. Premier Briand of France, making his farewell speech to the conference pressed his argument that his country dared not disarm, unless she had guarantees from the other powers and altho the general discussions drew renewed expressions of sympathy from every other national group no one proposed any joint declaration of policy.  
On the side of the naval reduction program developments were so completely out of the picture that some of the delegates showed impatience and pointed out the possible danger that the negotiations might become too exhaustive a discussion of details. It is possible the naval experts will be asked to simplify their methods so as to expedite action.  
Tomorrow will be a day of rest so far as meetings of the conference and its sub-divisions are concerned altho it may see some real progress thru consultations among the various individuals and groups.

## CLOTHES QUESTION BREAKS UP MEETING

(By The Associated Press)  
CHICAGO, Nov. 23.—Chiffon and lace hosiery, silk dresses and high heeled shoes were officially placed under the ban today by the Federation of University Women at the University of Chicago, but the meeting broke up in a near riot when one girl submitted a rule that skirts should reach to within eight inches of the ground.  
A costume of pleated or plain wool skirt and woven or jersey jacket, white waist or blouse with low heeled shoes was made the regulation dress which all university women will be urged to wear. Skirts, they say, will be about 15 inches from the ground.  
In addition to the fancy hosiery and silk dresses, beaded and satin fur wraps and hats trimmed with fancy plumes or flowers.

## ACCUSED MURDERER DIES OF PNEUMONIA

Milwaukee, Wis., Nov. 23.—Anton Staubli died today at the county hospital from pneumonia contracted yesterday while he was awaiting arraignment to answer the charge that he murdered his aged wife two and a half weeks ago.

## ATTEMPT TO SETTLE SPECIFIC PROBLEMS RESULTS IN CLASH

Chinese Delegates Challenge British Viewpoint—France Wants to Know Authority of Delegates—Root Resolution is Held to Embody Policy Defined by John Hay

(By The Associated Press)  
WASHINGTON, Nov. 23.—The attempt to settle specific problems that are troubling the far east led today to the first sharp clash of opinions in the arms conference. A British view of the concrete application of the four general principles already adopted met with a prompt challenge from the Chinese and the Chinese delegates themselves were pointedly asked by the French to show by what authority they presumed to speak for all of China over the protests of the South China government at Canton.  
The Japanese came forward with a suggestion that they would not oppose an execution of their famous twenty-one demands treaty with China to ascertain whether it conflicts with the "open door."  
The divergence of opinion between the Chinese and British over application of the four principles of the Root resolution attracted the widest attention because of its possible effect on future negotiations. Should the British view prevail declared the Chinese, it would mean an internationalization of Chinese economic resources.

The French objection was interposed when the Chinese presented at today's meeting a plan by which China would regain tariff autonomy by a gradual change from the present foreign control. The Chinese replied to the challenge that they were representing the only government in China recognized by the powers and were attempting to help rather than complicate the negotiations by furnishing whatever information they could.

The difference of view between the British and Chinese developed when a British spokesman explained to newspapermen that his government regarded the four accepted principles as meaning acceptance by China of a financial consortium, pooling of the operation of railroad concessions held by the powers and continued supervision of China's customs. The Root resolution, according to the British viewpoint, were adopted with acceptance by China of these principles in view by the signatory powers.  
The Chinese quickly sent out word that they had agreed to no such program.

Resolutions Apply to Open Door  
According to the Chinese view the Root resolutions apply to the "open door" as embodied in the policy defined by John Hay, waiving of special rights and privileges, unhampered political and economic development of China and assurance of her territorial, political and administrative integrity.  
The British view, if accepted, the Chinese assert, would be tantamount to international fiscal control which would be only a short step to political control.

Notwithstanding these cross-currents, the committee considering the far eastern situation, with special reference at the moment to China's financial affairs, made progress toward the appointment of a sub-committee to study the question.  
Dr. Wellington Koo, Chinese ambassador to Great Britain, and one of the conference delegates presented China's proposal for restoration of her tariff autonomy by three stages.  
He asked that from Jan. 1, 1922, China be permitted to levy a maximum duty of 12 1/2 per cent, which, he said, had already been stipulated in treaties with the United States, Great Britain and Japan in order to give immediate relief.  
Recognizing that it appeared hardly possible to establish a new customs regime at once, Dr. Koo said that China should impose a maximum rate with full freedom within that maximum, including the right of differentiation among the different classes of commodities. Finally, full autonomy, he said, should be restored to China, after a certain period, to be agreed upon.

## CONFERENCE OF HOWAT OFFICIALS TO BE HELD TODAY

Wilkinson Proposes Meeting to Settle Strike

(By The Associated Press)  
PITTSBURGH, Kans., Nov. 23.—Officials of the administration of Alexander M. Howat, former president of the Kansas Mine Workers' Union recently deposed from office and expelled from membership in the International union announced tonight that they would meet here tomorrow and discuss a proposal that they attend a conference with international union officials in Indianapolis next week.  
The proposal was put forward today by John Wilkinson, president of the Arkansas and Oklahoma district, and was in reply to a telegram the deposed Howat officials sent him suggesting the officials of the Arkansas-Oklahoma, Illinois and Kansas districts meet in Kansas City Sunday and discuss plans for the termination of the present situation in Kansas, where the union affairs have been taken in charge by the international union.

A strike has been in progress in the Kansas field several weeks lalled because of the commitment to jail of Howat and August Dorchy, the union vice president, for six months terms for violating the industrial court law. The international has ordered the union back to work and has dropped from membership approximately 4,000 miners for failure to go back.  
Announcement was made today by George L. Peck, provisional president of the district under the international that fifty nine local unions are now included under the international's jurisdiction in the district. This number, he said, comprises locals which were not suspended for failure to obey the international's "back to work order" and others after the suspension. Normally there are 130 local unions in the district.

## ALLEGED MAIL ROBBER INDICTED

(By The Associated Press)

Gardner pleaded not guilty to both indictments.  
Immediately after Gardner entered his plea to the first indictment, his attorney, Carl A. Davis, asked and received permission to file a written motion in which Gardner asked the court to have a jury determine his sanity at the time of the alleged offenses.

The Illinois commerce commission has ordered the street car fares in Chicago reduced from 8 cents to 5 cents. The millions that the railway companies have been earning afford the proof that the fare charges have been far in excess of the receipts necessary for the payment of operation costs and interest on the investment.

The announcements already made indicate that the primary election next spring will not be devoid of interest. Already there are two candidates for republican nomination for sheriff who have made formal announcements and at least two others have let it be known that they will enter the race. Numerous candidacies as a general thing, are helpful, as they add to the interest in an election and increase the size of the vote cast.

It is interesting to note in connection with Dollar day that a similar sale was held on the same date in White Hall. The sale was a success in White Hall, but that fact did not interfere with the coming of a good many Greene county people to take advantage of the Jacksonville bargains.

Two mail robbers were killed by the marines in Maryland on Tuesday, and from other parts of the country also have come reports showing the efficiency of the marines' plan of guarding the mail. Bandits are learning that the order was given in earnest, to take no chances, to shoot first and ask questions afterward, so that robbing the mails is no longer to rank as a pleasant pastime.

The Illinois college band this year is an organization of which the college has every reason to be proud. There are nearly fifty members in the band and already they play as if there had been many months of training instead of just a short period. There is an enthusiasm about the work of a college band which older and more experienced musical organizations almost invariably lack.

Measures passed by the congress which have just adjourned authorize expenditures of \$9,000,000,000. Some years ago the figures would have been appalling, but people are now so accustomed to huge totals that they do not stir as of old. Possibly the most important new law is found in the tax revision bill, and there must be a careful study of this provision before there can be any real understanding of its general effect. It is certain that the reductions have not been as marked as many citizens hoped for, but obligations which the government faces would not permit the deep cuts that congress in the beginning expected to make.

**BRITAIN WILL PAY**  
The British minister of education says that there will be no further proposals from Great

Britain for the cancellation of war debts. Some time ago there was a suggestion emanating from London for the mutual cancellation of debts, but it was rejected by the United States. "We shall pay our debt to America," says the British official, "and it only remains to discover in what way America can receive payment." That is the spirit to be expected from honorable debtors, be they individuals or nations.

No man can ask remission of his just dues, and expect to retain the respect of society; neither can a nation seek to be excused from the payment of moneys borrowed and hope to keep its prestige unimpaired. What Great Britain does in the matter of its debt to the United States will probably be taken as a cue by other nations who owe us money. Arrangements that the British may make for the ultimate extinguishment of their own obligations will be closely followed by the score or more of other debtor nations.

## SIXTY PER CENT INEFFICIENT.

(New York World.)

From the time of his appointment as director of the budget, Gen. Charles G. Dawes has been looked on in official circles as a man certain to make trouble. He is living up to these gloomy expectations. Not content with having pointed out how appropriations for government departments could be reduced, after thorough investigation he has prepared a report in which, first, he finds that fully 60 per cent of the government's clerical force is inefficient, and second, he recommends that examinations be held for all departments in order to rid the services of incompetent employees.

This is a violent and revolutionary proposal that could only come from a person who believed in business methods. If Gen. Dawes were more of a politician he would never have suggested so sweeping a reform. Every head of a department in Washington for many years has known that the bureaus were cluttered with deadwood and that with smaller forces of efficient workers the government's business could be better and more economically done. It was easy to see the need of a change, but nothing was ever done.

Certainly it would not seem unreasonable that department clerks and other employees of the government should periodically take examinations to test their fitness to retain their positions. But under the civil service system the man or woman who becomes a place holder may be a fixture for life. There is no great call for ambition or effort merely to remain on the government pay roll, and inefficiency thrives because of the want of means for correcting it.

## NEEDY FAMILIES ARE CARED FOR

Social Service League Distributes Baskets of Good Things to Families in City—Eighty Baskets Are Sent Out.

The Social Service League conducted its annual charity work for the Thanksgiving season yesterday afternoon, when eighty baskets heaped high with all sorts of good things to eat were distributed to needy families in Jacksonville.

The contents of the baskets were secured thru the public schools, and also by individual contribution. Many of the wholesale houses and bakeries of the city generously aided the league in its humane work.

Work of assembling the baskets was started early yesterday morning at the league rooms with Mrs. J. W. Brown, chairman of the relief committee and Mrs. John Kastrop in charge. The churches, some of which took baskets to their members, cooperated with the league to avoid overlapping.

The work of distributing the food was started at 2 o'clock in the afternoon, under the direction of M. C. Hook, who supervises the loading of a truck, assisted by several of the high school boys. During the afternoon, Miss Collins, the new case worker for the league, visited each of the homes where baskets were taken, to see that each reached its proper destination. The number of baskets sent out this year was larger than ever before.

A short time ago the Social Service League published an appeal for clothing for children of 8 to 14. Since that time the public has responded generously but there is still some need for clothing of this kind and the league will greatly appreciate any offerings.

## JACKSONVILLE MEETS WESTERN MILITARY

Local High School Lads Will Tackle Strong Alton Team Today—Should Win if They Play Kind of Football They Have Shown Recently.

Coach Mitchell will take his high school football warriors to Alton today where they will clash with the strong team of Western Military academy this afternoon.

While Western has a strong team the locals are in good condition and feel they will be able to take the measure of the Military school. The weather promises a heavy field but the locals after the last two Saturdays and especially last Saturday when they played Quincy feel that they can play as good in the mud as on a dry field.

Early in the season Jacksonville defeated Alton high and a week ago Western won from Alton high by a score of 21 to 6. On the basis of these scores the Military team is expected an easy game.

The theory on which this is based is that Alton was not going as good, because it was so early in the season, when she played Jacksonville as she was when she played Western. However, taking into account that same theory one can easily figure out that Jacksonville also was not as good then as she is now for the team did not reach the top of its form until the Waverly and Springfield games.

The teams are about evenly matched as to weight, if anything the locals have a little edge in height. It will develop largely into a question of condition and Jacksonville, unless the players have gone stale, is in first class condition. The men came out of the Quincy game in good shape and Mitchell has been working them hard during the week in preparation for this contest.

Coach Mitchell will start the same team at Alton that started the Springfield and Quincy games. If the team has its share of the breaks, the state will still be clean after the final whistle blows this afternoon.

## J. E. OSBORNE TO RUN MOUND ROAD FARM

Makes Contract With Mrs. W. S. Jones for Purchase of Tract Formerly a Part of the Hitt Estate

J. E. Osborne, county commissioner, yesterday entered into a contract with Mrs. W. S. Jones, for the purchase of a tract of forty-eight acres of land on the Mound road, just about one-half a mile outside the city limits. The land was at one time a part of the Hitt estate, but has been owned by Mrs. Jones for a number of years.

The acreage will be especially desirable for residence purposes in coming years, as hard road plans provide for a pavement west from Jacksonville on the Mound road. It is quite likely that in the course of another year or two, Mr. Osborne, whose home is now on Grove street, may remove to the property for which he has just made a contract.

FARMS MUST BE CONDUCTED ON BUSINESS BASIS

Troubles are Economical, Not Political, Speaker Says

(By The Associated Press)

ATLANTA, Ga., Nov. 23.—Farmers' troubles thruout the United States are economical and not political and will continue until the farm is conducted on purely business lines, Henry Wallace, secretary of agriculture, today declared before the third annual convention of the American Farm Bureau Federation.

Secretary Wallace said he believed the great work the department of agriculture should do now to help the farmer was not along production lines but along economic lines. He said the department should help the farmer follow his crop until it reached the consumer and the farmer should study all angles of the agricultural business.

Secretary Wallace told the delegates he considered the present agricultural depression the worst in the history of the country.

"This condition has been realized by congress," he said, "and during the past eight months it has passed more legislation to help farmers than any other congress has in the same length of time."

Discussing the war finance corporation, the secretary declared the slowness of banks thruout the country to realize that the corpora-

tion wanted to lend its money where it would do the most good hindered its work considerably. He said the corporation was making loans at the rate of one to two millions a day. Opposition to government fixing of prices on farm commodities was expressed by Secretary Wallace. He said such a procedure only tended to encourage greater production which in the future would be detrimental to the producers.

Mrs. Ietta Brown of Kingwood, West Virginia, another speaker, told of the part women were to play in farm bureau activities in the future. Reports from various state federations were also heard.

IMPROVEMENT IN STRIKE SITUATION

WALSHEBURG, Colo., Nov. 23.—Continued improvement in the strike situation was reported today to Col. Patrick J. Hamrock, adjutant-general, by company officials and rangers at several properties of the Colorado Fuel & Iron company, affecting by the strike of miners against a reduction of wages, according to an announcement by Colonel Hamrock. On the other hand, union officers said the situation was satisfactory from their standpoint.

Another witness was Dr. Ara W. Collins, called as an expert by the defense.

MARSHAL FOCH VISITS RICHMOND

Richmond, Va., Nov. 23.—After a day devoted by the entire population of Richmond to pay him homage, Marshal Foch left for Washington tonight, enroute to Harrisburg, Pa., the first scheduled stop in his trans-continental tour.

JAKE SCHAEFFER IS NEW CHAMPION

Defeated Willie Hoppe for 18-2 Title Wednesday Night—Winner Was in Great Form Running Out 500 Points in Six Innings.

CHICAGO, Nov. 23.—Jake Schaefer, Jr., of Chicago, tonight won the world's 18.2 balk line billiard tournament, defeating Willie Hoppe titleholder.

The score was 500 to 346. Schaefer played out in six innings with a high run of 212 and an average of 83 1-3. Hoppe had a high run of 140 and an average 69 1-5.

The score by innings: Schaefer—86, 212, 16, 12, 130, 44.—Total 500. Hoppe—140, 26, 7, 126, 47.—Total 246.

At the beginning of the fifth frame, Hoppe was 157 behind Schaefer and needed 201 to tie the score being 456 to 333.

Hoppe was under a severe strain. He made 47 points but on the next shot made a miscue on an easy draw shot.

Schaefer drew the bank and opened the game with a run of 86, missing a cushion first calculation shot on his 87th attempt. Then Hoppe had a run of 140 and missed the next, going to the side rail after the object ball.

Schaefer opened up the second frame by getting away to a run of 212 but on his next shot missed a draw for the end rail. Hoppe ran 26, missed a carom shot, then Schaefer went 16 and missed a difficult two cushion shot on his next try.

Hoppe was stopped with seven in the third, missing a one cushion shot left-handed.

Schaefer ran 12 in the fourth inning. He missed a cushion shot when the balls rolled close and he tried for a play on the far side of the second ball. Hoppe went good in his fourth, running 126, then missing a spread draw for his next shot. Schaefer made a run of 130 in the fifth, starting with a lead of 27. This inning practically ended Hoppe's chances for retaining the title.

Schaefer, according to observers played one of the coolest games in the tournament history. In his fifth inning he stopped after his 124th shot, went after a drink of water and, returning, gave minute attention to his cue.

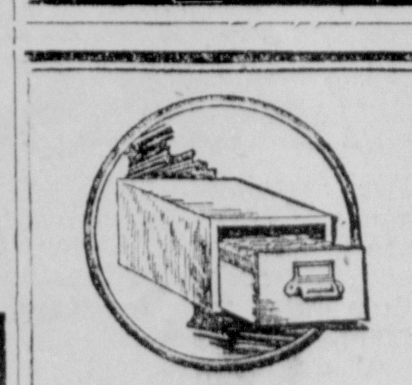

Schaefer proved a marvel to observers in lining up the balls, keeping them well grouped at all times. Hoppe was outplayed and seemed at no time to be up to championship form.

His defeat of Tuesday night seemed to have had no effect on his playing tonight.

Miss Grace Alexander arrived in the city Wednesday evening from Northwestern university, to spend the Thanksgiving holidays with her parents, Mr. and Mrs. Paul F. Alexander, of Caldwell street.

Peter Gaines, of Woodson, made a trip to the city yesterday.

SUPREME COURT RULES IN FAVOR OF THE CHURCH

Says That Directors Have Power to Remove Trustees

(By The Associated Press)

BOSTON, Mass., Nov. 23.—The supreme court today handed down its decision in the litigation concerning the governing boards of the Christian Science Church and its publications. It held that the directors of the First Church of Christ, Scientist of Boston (the mother church) have the power to remove a member of the board of trustees of the Christian Science Publishing Society.

It dismissed the bill brought by the trustees to prevent the directors from interfering with the affairs of the society. The decision in other respects confirmed the report of Judge Frederic Dodge, who sat as master in the controversy except that it made no ruling on the question of whether John Y. Dittmore, who was removed as a director by his fellow members, or Mrs. Anne M. Knott, who was elected by them to succeed him, was a director legally. The latter question was declared to be at issue in a separate suit. The exceptions to the master's report taken by Miss Emile B. Hulen, Brooklyn, N. Y., having been waived, were not considered by the court. The appeals of Mr. and Mrs. Edwin A. Krauthoff of Washington, D. C., were dismissed.

In its ruling as to the power of the directors to remove trustees, the court held that the removal by them of Lamont Rowlands, as a trustee, was effectual.

Today's findings, contained in a document of 31 pages, came almost a year after the supreme court took the case for consideration at the conclusion of extended arguments on the master's report. The suit was filed originally on March 25, 1919. Judge Dodge filed his report a year later.

SPECIAL SESSION OF CONGRESS ENDS

(Continued from page 1)

house, but was laid aside by the senate until the next session in order that the tax measure could be enacted. Besides passing appropriation bills aggregating nearly \$9,000,000,000 including the regular army and navy supply measures, some of the most important measures passed during the extra session were:

The temporary immigration restriction bill.

Establishment of the federal budget system.

The Capper-Tincher bill for regulating grain markets.

The Edge export corporation bill.

The law for federal regulation of meat packing and other livestock industries.

Provision for re-organizing soldier relief agencies, establishing the bureau for wounded veterans and other forms of the Sweet bill.

The Sheppard-Towner maternity bill for federal aid to mothers and infants.

The agricultural credits measure, providing a billion dollar revolving credit fund for the war finance corporation.

The Will's-Campbell anti-beer beer and reducing wine and whiskey prescription.

The federal good roads aid bill appropriating \$75,000,000 for state aid.

Numerous other measures were enacted partially being passed by either senate or house.

Of the many hard fought controversies of the extra session that over the soldiers' bonus bill stands out. The bill reported favorably by the senate finance committee was recommitted after President Harding on July 12 recommended temporary postponement. Democrats and some Republicans opposed delay and Republican leaders have promised action in the next session.

Numerous investigations also were conducted during the extra-session prominent among them being the general inquiry into agricultural conditions by a joint commission.

When the regular session convenes Dec. 5, appropriation bills for the next fiscal year and possibly the soldiers' bonus measure are to head the house calendar while the senate's calendar will include the tariff revision measure, the railroad debt funding bill, the allied debt refunding measure, amendment of the transportation act and the Newberry case.

All the bills which were introduced or failed of enactment during the extra session remain "alive" for consideration in the new session which is expected to last well into next summer.

Mrs. E. S. Gooding and Miss Sadie Sutcliffe, of Chicago, are spending Thanksgiving with Mr. and Mrs. P. D. Sutcliffe, of North Church street.

HEAD OF OWLS IS CONVICTED

Indianapolis, Ind., Nov. 23.—After an hour's deliberation a federal court jury here today found John W. Talbot of South Bend, supreme president of the Order of Owls, a fraternal organization guilty of violating the Mann act. Sentence was deferred by Judge A. B. Anderson, permitting the defense to decide whether the case would be appealed by Talbot. Meanwhile Talbot remains at liberty under bond.

The jury's verdict held Talbot guilty under each of four counts, charging violation of the Mann act with each centering around the inducement by Talbot of Pearl Bagley of Topeka, Kansas, to go to South Bend for criminal purposes. District Attorney Vannus said that the law provided a maximum punishment of \$5,000 fine and five years' imprisonment.

WILKINSON REJECTS OFFER

Port Smith, Ark., Nov. 23.—Rejection by President John Wilkinson of District 21, United Mine Workers, of a telegraphic invitation to discuss settlement of the Kansas mine workers controversy by deposed officials of the Kansas union and stating he doubted the authorship and authority of the telegram, was the outstanding feature of today's convention. Eugene Maloney.

Refusal of the convention to support a move to criticize the district administrator's strict policy of the past two years was also a feature of the late afternoon session.

Mrs. Owen Ryan and Miss May Clancy left last evening for South Bend, Ind., to spend the Thanksgiving with Mr. and Mrs. Eugene Maloney.

**ILLINOIS COLLEGE**  
**CARNIVAL IS SUCCESS**  
Affair Held for Benefit of College Y. W. C. A.—Well Patronized and Goodly Sum Realized.  
The Illinois College carnival given under the auspices of the college Y. W. C. A. last evening in the gymnasium, was a great success in both a social and financial way. It was given for the purpose of raising some funds for the Y. W. budget, and over a third of the budget was cleared.  
The affair was largely attended, most of the revelers being college students. All of the side shows and booths were generously patronized, and the minstrel show was screamingly funny, with Felix Farrell playing the stellar role among the clowns.  
The Y. W. C. A. is very grateful for the support given by the students, both for their contribution in preparing the carnival and for their patronage.

**WEEKS IS HOST TO DELEGATES**  
Washington, Nov. 23.—Secretary Weeks who has been confined to his home the past week by an attack of indigestion, today was host to the various delegations to the armament conference and ranking army and navy officers of the nine powers. More than a score of his guests were received by the secretary at a luncheon at one of the clubs.

**LYNNVILLE**  
During the absence of the pastor, L. R. Cronkrite, of the Christian church, George B. Kendall gave an address on the vision of a young man. His remarks were very much appreciated.  
The Ladies' Aid of the Christian church gave a chicken-pie supper and bazaar last Thursday night. A large attendance was present, considering the condition of the roads, and a nice sum was realized.  
Walter Fearnough was on the St. Louis market Tuesday, with a load of hogs and also a load of sheep.  
Considerable comment is going the rounds relative to a survey for a hard road passing through our village and south one-fourth mile, then taking through the fields in a westerly direction to avoid some rolling ground just west of our village. This route will evidently lessen the mileage between Jacksonville and Winchester. However, it will cut some farms in two and several corners on others.  
Miss Arthur gave a brief report of the Red Cross work, telling of the needs and explaining the opportunity of each community in being co-workers in this most worthy work.  
Rev. S. W. Wetzel, the pastor of the Methodist church, is holding a series of meetings and will continue over Wednesday evening.  
Walter C. Bradish was in Springfield yesterday on business connected with the Cloverleaf Casualty company.

**NEW TRIAL ASKED IN DICKINSON SUIT**  
Sessions of Circuit Court Will Be Resumed Monday—Chancery Order Taken  
The circuit court has been adjourned until Monday morning, when Judge Smith will return from Springfield and the work of the criminal docket will begin. The following are the most recent docket entries:  
**People's Cases**  
Walter Pate, who is charged with forgery, entered a plea of guilty. Motion for probation was made and the case was referred to Ben C. Andrews for investigation and report.  
**Law Cases**  
In the suit of Susan H. Dickinson vs. J. Weir Elliott et al., exors., motion was made by the defendants to set aside the verdict and for a new trial.  
In the assumpsit suit of Jacob De Ornellas vs. Avery Co., motion was made to set aside the verdict. In the trespass suit of Jennie A. Smith vs. William D. Hoover, the motion for the filing of cross bond was allowed and the time limited fixed for Nov. 29.  
The appealed case of J. J. Shaffer vs. Norman Dewese, was dismissed by the plaintiff.  
The assumpsit suit of Bluford Wilson and William Cotter as C. P. & St. L. receivers against F. H. Miller, was dismissed by the plaintiff.  
In the trespass suit of Eugene Payt against the Wabash Railroad Co., the defendants' demurrer was overruled and the defendant was ordered to plead by Nov. 28.

Five Illinois college football men will play their last game on Illinois field this afternoon at 2:30 p. m. when the Blue and White meets Shurtleff, Captain Cully, Ferreira, Dolbow, Thurman, and Fiedling are the seniors who will don the moleskins for the last time. They will endeavor to close their football careers with a win over the Shurtleff team.  
Weather and field may not be of the best but there will be a game no matter what conditions exist.  
Coach Harmon sent Coach Lowery of Shurtleff a telegram this afternoon stating that the Shurtleff team is expected to come rain or shine.

Illinois team is in first class condition and is preparing to give Shurtleff an assortment of offensive plays that the southern team may experience considerable difficulty in stopping.  
The probable line-ups of the two teams to start the game are as follows:  
Illinois: Shurtleff, Witasek, le, Potter, Reid, It, Rhel, Weber, lg, Foiles, Roberts, c, Rice, Gunn, rf, Goodsell, Ribelin, rf, Ellison, Mellon, re, Johnson, Cully, qb, Walton, Jones, rh, Cambell, Burns, lh, Foster, Rogers, fb, Garcia, Referee—Bowen, Umpire—Larson, Headlinesman—Tomlinson, Quarters 15 minutes.

**TOWNSHIP MEETINGS IN GREENE COUNTY**  
Will Be Held Simultaneously on December 2, by the Farm Bureau—Union Thanksgiving Service at White Hall  
White Hall, Nov. 23.—The Greene county farm bureau has decided to carry out meetings simultaneously in every township in the county on Dec. 2, at 7 o'clock, p. m. In some townships two meetings will be held. This plan was decided on at a conference of township leaders in the court house at Carrollton, followed by a banquet in the Pierson hotel, each township being represented by from one to six members. This information will be contained in the weekly press letter to the papers this week, issued from the office of the farm bureau.  
Thanksgiving is to be observed at White Hall with services in the Christian church at 10:30 o'clock. The sermon will be delivered by Dr. J. O. Kirkpatrick, and there will be singing by a large union chorus under the direction of Mrs. C. C. Brown. This is the year for the Methodists to hold the annual Thanksgiving dinner, but this feature of the annual observance in White Hall has been dispensed with.  
The local office of the C. I. P. S. Co. is seeking new quarters since the sale of the Chapin building on the west side of Main street to Christian Bros. of Jerseyville, candy manufacturers. It is now stated that the public service people will get the building on East Sherman street, occupied by the Simonds meat market, and that Mr. Simonds will occupy the building immediately to the west of his present location, which he purchased some months ago, it is now stated.

### PRESS COMPLIMENTS FOR MRS. GRACE JESS

A Los Angeles paper in a department devoted to "Music and Musicians" recently made very complimentary comment on the work of Mrs. Grace Wood Jess, daughter of Mr. and Mrs. R. S. Wood of this county. The notice is in part as follows:

"Visualized folk-songs, as they were done by Grace Wood Jess at the Gamut Club Theater, were delightful. Of winsome voice, which she tellingly, yet in quite unobtrusive manner adjusts in pitch and timbre to the various characters she enacts within a song, this refined artist offers an unique and exquisite illustration of pantomime which always has played an essential part with the folk to whom their own folk-songs have been their most ready emotional outlet outside of the prayer.

"There were songs from the Kentucky Mountains sung in a costume once worn by the wife of Abraham Lincoln when she was the first lady of the land. Then came plantation songs. Another change of costume for the sacred legends from France, Russian songs too were illustrated in proper fashion of costume, as were the 'melodies populaires' of the 17th and 18th century. Briefly, Miss Jess' costuming is charming as it is correct. She possesses so much natural grace, a fine sense of colour relation, and a gift for pantomimic work which is truly great in its delicacy. Yet there is not only elegance to her acting, but it ranges from the lightly sweet to the deeply touching tragic. And there is also a delicious note of finely tempered humour of the dramatic.

"Not by any means should this appreciation of her visualizations detract from the musical value of her work. One can compare the vocal side of her program, just as her gestures and costuming to those pieces of Sevres or Dresden porcelain, which are miniature statuettes of perfect artistry, showing peasant-girls a la Watteau and realistically, street singers and the people of the fashionable world.

"Miss Jess' singing is true to the spirit of her selections, blending so well with the other factors of her art that one is absorbed by the total of impressions. Her clear, sweet voice is handled with mature musicianship and produces atmosphere as does a simple wave of her eloquent hands. Whether she indicates the hourly call of the watchman in the nativity legends with silver voice or with broad tones the threatening drone of the Bells of Nantes that sound the 'alarm' because of the escaped prisoner both ear and eye are fascinated.

### MORE CONTRIBUTIONS FOR UNITED BUDGET DRIVE

The United Budget campaign is still on and each day a small amount is received. Yesterday a total of \$359.42 was received making the grand total received to date amount to \$8,270.42 with 1,860 subscribers.

This still leaves the sum of \$4,229.58 to raise to bring the budget to the required amount of \$12,500.

Several people called at headquarters in the Chamber of Commerce rooms and increased their pledges. If people would increase the amount of their pledges to be paid six months from now it would do much to solve the problem of raising sufficient money.

PRICE OF WHEAT  
SHOWS ADVANCE

By Associated Press.  
CHICAGO, Nov. 23.—Export  
sales at the Gulf of Mexico to-  
day with unexpected higher  
prices at Liverpool, and Buenos  
Aires had a bullish effect today  
on the wheat market here. The  
close, also unsettled was at 1 to  
2 1/2¢ net advance, with December  
\$1.10 1/2 to \$1.10 3/4 and May \$1.13 1/4  
to \$1.13 3/4. Corn gained 3/4¢ to  
3 1/2¢, oats 1 1/4¢ to 1 1/2¢ and provi-  
sions 5¢ to 12¢.

Bullish sentiment as to wheat  
predominated from the start.  
With foreign prices going upward  
the question of whether addition-  
al exports from this country  
would be at the expense of do-  
mestic requirements received fresh  
notice, especially as domestic ar-  
rivals continued to arrive.

Meanwhile London reports  
were at hand telling of activity in  
buying on the part of the Japan-  
ese and of unfavorable crop con-  
ditions in Argentina. In addi-  
tion, there was gossip that all the  
cheap hard winter wheat at the  
Gulf of Mexico had been bought  
up for shipment to Europe. Ex-  
port sales of 400,000 bushels at  
the Gulf were confirmed. In this  
connection it was said that per-  
sistent drought in the southwest  
had apparently exercised a stimu-  
lating influence on demand. The  
only setbacks which took place in  
prices proved transient but the  
December delivery eased some-  
what as compared with May, ele-  
vator interests announcing the  
purchase of considerable hard  
wheat to be brought here from  
outside terminals.

Corn and oats rose with wheat.  
For the first time in weeks De-  
cember delivery of corn com-  
manded fifty cents or more a  
bushel.

Provisions were given a life by  
strength in hog values as well as  
in grain.

THANKSGIVING SMILES

Thanksgiving Day comes to remind us of the One who is so kind; that we forget or do not know, for food and clothes, this One we owe.

Let's all forget the troubles past. They aren't of God, so cannot last. We have more blessings by tenfold. Then, why a frown should we all hold.

So, let us all be happy, now And for one day let's make a vow. That not one worry will we bear, And smiles, not frowns today we wear.

E. Bernice Wood.

COURTESY REMEMBERED

A certain well known clothing merchant who strictly forbade the mention of his name, showed some acts of kindness to itinerant tourists last summer and yesterday received a card of greetings.

Newmarket, Ind., No. 22, 1921. Greetings from tourists of the trail of 1921. Indiana to California. We spent one Sunday in your city park at your request; had fine trip to coast and returned by rail. Your friends, J. W. Grey, Wife and Daughter, Jeanette.

We boosted Jacksonville, Ill., all the way to California. We certainly related your interest in us by piloting us out of your city on that morning in June.

OUR STORE WILL BE CLOSED THANKSGIVING DAY.

### AUTO LIGHT CONCERN TO ESTABLISH PLANT

Local Men Have Patent on Device for Shifting Automobile Lights—Will Start Manufacturing Business Here

Notice of the incorporation of the Controllable Auto Light company, of this city, was issued recently by Secretary of State Emerson. Not a great many people have been familiar with the purposes of the company and will now be interested in knowing of the intention to establish a plant here for the manufacture of the appliance.

The purpose is to begin business on a moderate basis with the expectation that, in the course of a very few weeks, a much larger force of workers will be needed. The incorporators of the company are Chris. Anderson, of this city; J. R. Mitchell, of Alton, Ill., and T. F. Dehr, of Hinsdale, Ill.

#### Shifts Lights Easily

The company has an authorized capital stock of \$50,000 and a considerable part of the stock has been subscribed. The Controllable Auto Light company has patents on an apparatus whereby it is possible to move the lights on an automobile at will. By the use of the contrivance, the lights can be shifted so that they will not blind approaching drivers and can be thrown to either side of the road for illuminating purposes.

The manufacturing of the apparatus has only been in operation since the state fair, the incorporators having the work done at a plant in Alton. This article sells so readily that the demand has exceeded the supply and Mr. Anderson and Mr. Mitchell naturally feel that they have started a business with large possibilities, for there is nothing else on the market which compares with this apparatus, the lever of which, is operated with the foot.

Mr. Anderson, who for a long period, was with the International Harvester company, has been for years a resident of this city and his principal associate, Mr. Mitchell, was formerly with the Cloverleaf Casualty company. It is his expectation to return to Jacksonville and become a resident at an early date.

Thus far all of the appliances manufactured have been designed especially for Ford cars. However, the use is not limited to Fords and with a slight change the article can be attached to any car.

#### Accident Lead to Invention

Mr. Anderson said yesterday that he was especially impressed with the need for something of this kind a year ago when he was driving one night on the way from Oklahoma to Jacksonville. The glaring headlights of an approaching car made him turn into a ditch and a bad accident was narrowly averted. From that time he began to think of what improvement could be made in car construction to make driving after night an easier and safer matter. As a result came the patented article that the Controllable Auto Light company has perfected. It has been improved since the first design and three patents have been issued.

Those who have seen the device are enthusiastic about it and believe with Mr. Anderson and Mr. Mitchell that they are starting a business which will grow rapidly and so be of great benefit to Jacksonville in a commercial way.

### DEATHS

#### Higler

Miss Elizabeth Higler, brief mention of whose death was made in Wednesday's Journal was the daughter of Joseph and Christina Seeder and was born in this city, Jan. 9, 1865.

Her entire life was spent here where she attended the public schools and then engaged in teaching. For twenty-five years, Miss Higler was a teacher at the Franklin school in the Third ward and for several years past was principal of the Morton school, better known as the Third ward branch school.

She was regarded as one of the strongest teachers in the city and was devoted to her work and many citizens of today, both men and women, attribute their success in life to the training of earlier years, received from Miss Higler. Just prior to her last illness Miss Higler resigned her position at the Morton school, and had planned to take an extended vacation.

Miss Higler was a member of First Baptist church, and although her teaching duties were arduous, she found time to take part in many of the activities of the church. Throughout her career as a public school teacher she gained a wide acquaintance and was highly regarded by hundreds of Jacksonville residents, teachers and members of the board of education.

She is survived by one brother and four sisters, John Higler and Miss Mary Higler at home, Miss Margaretta Higler of Pasadena, Calif., who has been here for the past year, caring for her sister, Mrs. Christie H. McKinney of Pasadena and Mrs. Emma Weems of Ottumwa, Ia.

### HIGH SCHOOL GAVE GREAT CARNIVAL

Pronounced by Those in Attendance as the Best in History of School—Each Class Put on Stunt.

The high school carnival was given last evening in the new building and had an unusually large crowd considering the weather. Each of the classes presented a stunt in the auditorium, besides conducting booths and side shows all over the building.

The freshmen were the first in the program. They gave and ingenious and highly amusing take-off on a country school. Then came the sophomores with a beautiful series of tableaux, to represent the passing seasons. The next number brought the house down. It was a special act given by Riley Aldike, pianist, and Clifford Sibert, noted Hawaiian Hula dancer. Riley played the accompaniment for Clifford, who went thru the gyrations of the real Hula, with serpentine grace of movement. The juniors then gave a cutting from the play, "The Kettle Sings," with the following cast:

The Kettle—George Oberbarte, Motor Maid—Lavinia Scott, Lucy Potts—Carolyn Doane, John Potts—Edward Hill, Mrs. Smythkins—Mary Edith Baumgartner, Mrs. Byson—Josephine Milligan.

Miss Schoocraitt—Lueta Staff, Mrs. Ade—Virginia Brown, Mrs. Meanwell—Edythe Ruyie, Authors—Lois Harney, Mrs. Darwin—Eleanor Stoldt, Mrs. Black—Gertrude Tompkins.

Delivery Boy—Carl Keehner.

The play was the story of a young married couple, who used some very modern devices, but were constantly interrupted.

The final stunt was a minstrel show of stars renowned, but co-ed by the senior class. Coach Mitchell was the interlocutor, and was the object of many of the jokes pulled by the end men, Tommy O'Brien, Reginald Reid, Albert Arter and Lawrence Loney, assisted by Elizabeth Boruff and Virginia Cumming, as end ladies of dusky hue. The prize for the evening should be awarded to Reginald Reid for his sympathetic rendering of "Hortense."

The following vocal numbers were given:

"I Want My Mammy"—Helen Turner, "Why? Dear"—Albert Arter, "Roses Bring Memories of You"—Paul Bolman, "Ma"—Dorothy Randle, "Hortense"—Reginald Reid, "Tuck Me to Sleep in My Old Tucky Home"—Virginia Cumming.

The side show included a baby show, trip thru Hades, a swimming match, and there were also booths for the sale of home made candies, ice cream, pop, and eats for sale in the cafeteria.
